

Acoustics events in Brazil and around the world (2024–2029)

This section presents a selection of major events, congresses, and meetings in acoustics, noise, vibration, audio, signal processing, and related fields scheduled between 2024 and 2029, including dates, locations, and official websites. The events were selected based on international associations (ICA, I-INCE, ASA, AES, IIAV, EAA, ISMIR, FIA etc.) as well as national and regional entities, aiming at a broad panorama that includes both large-scale conferences and regional meetings. Events held in Brazil are marked with a yellow star. In addition, Figure 1 presents a few statistics derived from this list.
